EVERGREEN TREES

SPRUCE

COLORADO BLUE—A rare, elegant tree with foliage of rich blue. Tree has a symmetrically shaped, narrow, pointing or rounding top; is hardy and quick growing. Price, 1½ to 2 ft., \$4.00.

NORWAY—A lofty, noble tree of open, pyramidal habit; exceedingly picturesque. Very popular and effective in evergreen groups and one of the best evergreens for hedges. Prices, 2 to 3 ft., \$1.25 each; 3 to 4 ft., \$2.50 each.

SPRUCE, BLACK HILL—Makes a very close and compact growth. The foliage shades from green to a bluish tint. This is a very hardy variety. Price, 18-24 in., \$2.00 each.

ARBOR VITAE (Thuya)

AMERICAN (WHITE CEDAR)—A beautiful native tree commonly known as the White Cedar; especially valuable for screens and hedges. Fine for planting singly or in groups with other evergreens. Price, 2 to 3 ft., \$1.50 each; 3 to 4 ft., \$3.00 each.

FIR

CONCOLOR (WHITE FIR)—A picturesque, Colorado species; long, leathery leaves, with glaucous tinge when young becoming green with age. Branches arranged in horizontal whorls. A fine tree, makes splendid specimens. Price, 2 to 3 ft., \$2.00 each.

DOUGLASSI—From the mountains of Colorado. A rapid grower, foliage somewhat resembles Hemlock, leaves light green above, glaucous below. Conical form branches spreading. Price 2-3 ft., \$2.00 each.

AUSTRIAN PINE—Tall, massive, with spreading limbs and long, stiff needles. Thrives along the coast, inland and under city conditions. Handsome for specimen or open group planting. Price, 2 to 3 ft., \$2.50 each.

GEORGE PEABODY (GOLDEN ARBOR VITAE)—A moderate grower. Foliage golden-yellow, and retained well throughout the year. Very good for producing color contrasting effects. Price, 18 to 24 in., \$3.00 each.

ORNAMENTAL AND SHADE TREES

BECHTEL'S CRAB (Double Flowering)—The flowers are a beautiful pink; very sweet scented; two inches in diameter; blooms in May. Grows twenty to thirty feet tall. 3 to 4 ft., 50c each.

CATALPA BUNGEI (Umbrella Catalpa)—Grafted on stems 6 to 7 feet high, it makes an umbrella-shaped top without pruning. A very desirable ornament for the lawn or along the driveway. Perfectly hardy. \$1.00 each.

ELM, AMERICAN—One of the very best shade trees for lawn, street or park; has wide, spreading head and graceful, drooping branches; attains very old age and large size. 7 to 9 ft., \$1.50 each; 9 to 10 ft., \$2.00 each.

WILLOW, GOLDEN—Especially desirable on account of its golden colored bark with light green leaves. A splendid grower. Price, 3 to 4 ft., 50c each.

MAPLE, NORWAY—Supposed to be the best of the maples for street planting; grows to large size, with head usually round and perfect in form with deep green foliage. 6 to 8 ft., \$1.25 each; 8 to 10 ft., \$1.60 each.

SILVER MAPLE—Of excellent rapid growth and desirable where quick shade is wanted. 10 to 12 ft., \$1.00 each; 10 for \$9.00. 10 to 12 ft., \$2.00 each; 10 for \$18.00.

SUGAR OR ROCK MAPLE

6 to 8 ft., \$2.50 each; 8 to 10 ft., \$3.00 each.

MULBERRY TREES, 4 TO 5 FEET

Downing	-----	\$.85
New American	-----	.85
Russian	-----	.75

POPLAR, CAROLINA—The most rapid growing tree we have; especially desirable where quick returns are wanted; it is a vigorous, healthy, native tree pyramidal in form, with large, glossy leaves, valuable for park or street planting.

LOMBARDY POPLAR—Well known for its erect, rapid growth and spike-like form; not as good for shade as the Carolina.

Price, 8 to 10 ft., 50c each; 10 for \$4.00; 10 to 12 ft., 75c each; 10 for \$6.00.

BUTTERNUT

4 to 5 ft., \$1.00 each.

ENGLISH OR MADERIA WALNUT

3 to 4 ft., \$1.25 each.

Fruiting Age Trees

It has been the custom and is now with most nurserymen to dig and sell to the planter Fruit trees at one and two years of age, requiring the planter to develop them in the orchard to Fruiting Age size. When you take into consideration that you plant from 30 to 80 trees on an acre, it is expensive to develop the young stock in the orchard as compared with producing 8,000-10,000 trees in the nursery on one acre of ground.

There is no doubt but that the nurserymen of experience can train and develop these trees and bring them to Fruiting Age size in the nursery much better and cheaper than the planter.

Fruiting Age trees properly grown to insure successful transplanting and thrifty after-growth should be root-pruned or transplanted at two years of age. Root-pruning is done by cutting under with the digger and allowing the trees to remain in the original row until 4 or 5 years of age. This acts the same as transplanting, forming fibrous roots, retarding the growth, hardening up the wood, and forming fruit spurs.

During the past 15 years we have grown our Fruiting Age trees in the above manner and find that they live and grow after shipment as well as younger stock on this account.

We know of no other firm listing and selling root-pruned Fruiting Age Trees and would caution you in buying this grade of stock from nurserymen inexperienced in this separate and distinct branch. It costs more to produce, but is worth more to plant Root-Pruned FRUITING AGE TREES.

Some of these early-bearing varieties have already borne fruit in the nursery row, and should bear some fruit the year after planting. If they blossom the year of planting, the blossoms should be taken off for the tree should have this nourishment for wood growth.

We Recommend These to the Planter and Know They Will Give Perfect Satisfaction

STANDARD APPLES			Each	Per 10

NURSERY STOCK

This is to certify that the nursery stock of The William J. Reilly Nurseries of Dansville, County of Livingston, State of New York, has been duly examined in compliance with the Agriculture and Markets Law and has been found to be apparently free from all injurious insects and plant diseases. This certificate is valid until September 1, 1932.

Dated, Albany, N. Y., Sept. 1, 1931.

BERNE A. PYRKE, Commissioner.
B. D. Van Buren, Director, Bureau Plant Industry.

GLADIOLUS

The most attractive of all the summer flowering bulbs. Can be grown planted from the middle of April with very little care. Should be into May. Set bulbs 2 to 4 inches deep and 6 to 9 inches apart.

Price 10c each.

Augusta—White, faint lavender stripe.

America—Soft flesh pink.

Etendard—White with red center.

Francis King—Vermilion scarlet.

Herada—Pure mauve.

Niagara—Yellow.

GROWERS FOR NEARLY HALF A CENTURY
